Create and share. Press "Generate Meme" and then choose how to share and save your meme. You can share social applications or through your phone, or share a link, or download to your device. You can also share with one of the many imgflip memes communities. How can I customize my meme? You can move and change the size of text boxes by dragging them. If you're on a mobile device, you can first check "Enable drag/solve" in the more options section. You can add as many additional text boxes as you want with the Add Text button. You can customize the color of the font and the color of the contour next to where you write your text. You can further customize the source for each text box using the gear icon next to the text input. IMGFLIP supports all the sources installed on your device, including the default sources of Windows, Mac and Web, including Bold and Cetalic. More than 1,300 free sources are also supported for all devices. Any other source you want can be used if you first install it on your device and then type the source name on IMGFLIP. You can insert popular or customized decals and other images, including cabin hats, sunglasses, voice bubbles and more. Opacity and size change are supported, and you can copy/paste images using CMD/CTRL + C/V for quick creation. It can rotate, turn and trim any template you upload. You can draw, contact or scribble on your meme using the panel right above the meme preview image. You can create "memes chains" of multiple images stacked vertically by adding new images with the "current image" setup below." You can remove our subtle water brand imgflip.com (as well as remove ads and overfeed your creating skillsUsing imgflip Pro o. Can I use the generator for more than memes? Hone! The meme generator is a flexible tool for many our own. When loading personalized images and using all customizations, you can design many creative works, including posters, banners, banners ,.
